SACKED THE MISSION.

Chinese Fanatics Take Offense at the Plymouth Brethren and Make a Riot.

Pirates Capture a British Steamer and Murder the Captain—Passenger Steamer Founders.

SAN FRANCISCO, Aug. 3.—Chinese advances by steamer Belgic state that on July 9, the Chinese at Yuchon attacked and destroyed the mission of the Plymouth Brethren and were about to attack the Catholic mission when the soldiers interfered. The attack on the Plymouth mission was caused by the report that the missionaries had killed a child. A mob of Chinese attacked the ladies' home boarding school, where five white women had taken refuge. Just as the mob broke in the door, the women escaped through the back gate to the house of Mr. Blanford. The mob demolished the ladies' home and then proceeded to the Blanford place and attacked it. The people there escaped into the hills, where they hid all night in the darkness. The Blanford place was looted and burned. The mob then rushed to the Catholic mission, but by this time the soldiers had been summoned and they dispersed the rioters. The next day a woman and Mr. Blanford were taken away on a boat.

News has been received of the wreck of the steamer Srihong Ann, bound from Singapore to Malacca. The steamer foundered in a squall, ten miles from Malacca, and 110 people were drowned. Captain Rawkins and six passengers and the crew were saved.

News has been received at Hongkong of the capture of the British steamer Pogue by a Chinese pirate on July 1st. A gang of Chinese took passage on the Pogue and while at sea murdered Captain Ross and seven of his crew and wounded sixteen others. They looted the ship and then fled to the Acheen coast.

GREEK FINANCES.

Salisbury Says They Must Pass Under the Control of the Powers—The Future of Crete.

LONDON, Aug. 3.—Lord Salisbury, in discussing the affairs of Turkey and Greece yesterday, said: "The credit of Greece in the European market will for a long time be exceedingly small, and some form of control of the Greek sources of revenue is inevitable. I cannot say that negotiations in that direction have advanced very far, and I must admit that the question may be a source of very considerable delay."

With reference to Crete His Lordship said there was no use for the powers to attempt to arrange a form of government until the more important controversy had been adjusted. The present attitude of Crete seemed to be favorable to an agreement so far as the Christians were concerned, but the two creeds were no nearer than they had been for many centuries.

TRADE WITH FRANCE.

Sir Wilfrid Laurier Predicts a Great Increase Under the New Conditions.

PARIS, Aug. 3.—M. Cochery, the French minister of finance, presided at a banquet given last evening in honor of Sir Wilfrid and Lady Laurier. Among the guests were M. Fabre, the Canadian agent, ex-Mayor Beauregard, of Montreal, and the rector of the University of Quebec. Sir Wilfrid Laurier responding to a toast of his health, referred to Great Britain's denunciation of the commercial treaties with Germany and Belgium, which he said was at Canada's request, and predicted an enormous development of trade between Canada and France.

JAPAN AND HAWAII.

The Mikado's Government Would Prefer to See the Little Republic Remain Independent.

CITY OF MEXICO, Aug. 3.—In an interview regarding the Hawaiian-Japanese controversy, Yoshitomi Murota, Japanese minister to Mexico, made the following statement:

"Many Japanese in Hawaii believe they have rights which might be interfered with in the event of annexation. What if the United States respected these rights? In such cases there would be no objection on the part of my government. However, Hawaii is the only independent country in the Pacific, and Japan would prefer to have it kept independent. Even if the United States should carry out their policy of non-interference in European or Eastern affairs, in case the island should become a part of the American Union some contingency might arise forcing them to change their policy of neutrality. For instance, Hong Kong is an important British settlement. If America had any question with Great Britain over her possessions, these islands might lead as an incident in colonial politics to the expansion of the American domain far beyond present intentions. This is the reason we prefer to have Hawaii wholly independent."

The minister further said: "Even if the United States were to make a present of Hawaii to Japan it would not be accepted. The Japanese have no ambition to annex Hawaii. As I said, Japan would rather see the islands independent and free."

THE GERMAN TREATY.

Agitation for European Reprisals Against America Follows Its Denunciation.

BERLIN, Aug. 2.—The German press still actively discusses Great Britain's denunciation of the commercial treaty, and the agrarian section fiercely demands a tariff war, and agitates for reprisals against the United States. Veiled suggestions are made for a European trade league against America, with threats of serious consequences should England refuse to join such a league.

WHOSE BALLOON?

A Circumstantial Account of One Seen Over Manitoba.

WINNIPEG, Aug. 1.—A Whitemouth dispatch to the Free Press says: Inquiries regarding a balloon which was seen passing in a northeasterly direction on the evening of the 29th, three miles from Whitemouth, have elicited the fact that the evening was remarkably calm and clear. Farmer Henderson was standing at the door of his barn, and was taking a glance around the sky when he saw a large, oblong object sailing slowly across the horizon. Gradually he made out the car, when he saw a large sail swing into view. Astonishment held him spellbound, and again and again the ghost-like sail swung in full view, showing its enormous proportions, then slowly drifted out of sight in the twilight.

Henderson, on returning to his house, consulted a newspaper having a picture of Andree's balloon, and declared the airship he saw was of the same character. The balloon was floating very low, and Henderson says it could not have been more than half a mile away. He could see no signs of life, and it showed no light.

TORONTO NEWS.

Case of Malignant Smallpox Detains Steamboat Passengers—The Civic Holiday.

TORONTO, Aug. 3.—The civic holiday was pleasantly celebrated here yesterday. There were two lacrosse matches. The Torontos whitewashed the Capitals in a game at Rosedale, by 5 to 0. The Tecumsehs defeated the Berlins by 4 to 2. There were also baseball matches and a yachting regatta.

The body of Lizzie Wilkie, chambermaid at the Walker House, has been found in the bay. It is a case of suicide.

A boy named Whitney, now in quarantine, has smallpox in the most malignant form and his recovery is doubtful. The passengers and crew of the steamer Passport, on which the boy travelled from Belleville, are held in quarantine.

Rev. Father Lehman died at St. Joseph's hospital yesterday from appendicitis.

Fighting in Egypt.

CAIRO, Aug. 1.—The Egyptian intelligence department has received word of heavy tribal fighting up the Nile between the dervishes and the Jaalins. The dervishes, under one of the generals of the khalfia, defeated the Jaalins in a pitched battle and occupied Metemneh on July 1. The losses on both sides are very heavy. The Jaalins are said to have lost 2,000 killed.

Smoothering the Kaiser.

ALIENS ARE IN LUCK.

The New Law Ineffective to Keep Them Out of the Crow's Nest Railway Profits.

Minister Tarte Blessing a Bell in a Quebec County Holding Him in Reverence.

Winter Mail Service to Klondyke in Prospect—A Husband-Killer Set Free.

(From Our Own Correspondent.)

OTTAWA, Aug. 3.—The government has been made aware that the attempt to enforce the alien labor law in the Crow's Nest Pass during the construction of the railway is a huge farce. The law is being violated every day. Not only are aliens obtaining employment but it is known that Americans are getting the fat of the sub-contracts despite the conditions imposed by the minister of railways. The way they work it is this. A citizen of the United States having some plant and capital gets a Canadian navy to apply for a piece of work. The navy is of course a man of straw and the profit goes to the American contractor who does the work. It is said that the head contractors are aware of this deception in many instances, but the exigencies of their contracts, the work requiring to be pushed with all possible speed, render them oblivious to infractions of the new law.

The Free Press, the Liberal organ, makes the following announcement regarding Mr. Tarte: "The minister of public works is to-day blessing a bell in St. John's, where Mr. Tarte is held in reverence as the county's representative in parliament. He will be in Ottawa again to-morrow, after having concluded an examination of the places where money is to be spent along the St. Lawrence river in harbor and other improvements."

Mrs. Omir, of Gatineau Point, who was acquitted on the plea of insanity of the charge of murdering her husband, whom she killed with an axe last February, was given her liberty to-day and returned to her home.

The postmaster general has under consideration plans for a regular mail service to the Klondyke this winter.

MANITOBA AND NORTHWEST.

Land Sales Booming—Alien Laborers to Be Looked After—Official Fugitives.

WINNIPEG, Aug. 2.—Commissioner McCreary is taking steps to thoroughly enforce the alien labor law in connection with the Crow's Nest Pass railway. He has advised Contractor Haney that he must not engage men or outfits from the United States, or else the C.P.R. Company as well as the men will be held liable. He has also instructed the commanding officers of the mounted police at Lethbridge and MacLeod to get a copy of the alien labor law and carry out its provisions strictly, but with discretion, and the immigration agents at Fort William and Duluth will be on the look-out and keep the commissioner fully advised. Mr. T. G. Mathers leaves for Fort William to-morrow to give advice to the agents in the carrying out of the provisions of the law.

A. J. Delmage, an employee of the Vulcan Iron Works Co., was instantly killed by the falling of a machinery hoist which he was engaged in fixing in Maw & Co.'s building.

C.P.R. land sales are booming. The company sold 17,000 acres last month for the sum of \$56,000, which is three times the quantity sold last year during the same month.

Visitors in the city from Dauphin report a serious disagreement between the two officers of the Dominion lands office there, a recent dispute between them terminating in a fist encounter. It is understood that Mr. Sifton has ordered an investigation.

The Archbishop of St. Boniface left for the East to-day to be present at the consecration of the new Archbishop of Montreal.

It is reported that the Canadian Pacific will build a large steel elevator of mammoth dimensions at Fort William this fall.

WINNIPEG, Aug. 3.—The Western fair at Brandon opened to-day. The weather is perfect and attendance large. Many of the exhibits shown in Winnipeg are at Brandon.

Wheat harvesting commenced yesterday at Fort Qu'Appelle and will be general next week. This is the earliest on record.

Chas. Marrin, carpenter, died at St. Boniface hospital yesterday from the effects of internal injuries sustained by falling from a scaffold in St. Mary's church.

It is announced that the Royal-Victoria Life Insurance Co. of Montreal will commence to issue policies about the 1st of August, and that the Manager is now ready to receive applications for local, district or general agencies in Canada. Further information may be had on application to David Burke, General Manager, Montreal.

HOW PROTECTION PROTECTS.

San Francisco Merchants Dislike the Canadian Duty—Seattle Also Disturbed.

SAN FRANCISCO, Aug. 1.—Merchants of this city who have profited by the Klondyke excitement are considering seriously the advisability of communicating with the treasury department in Washington and asking retaliatory measures against the new Canadian tariff. It has been estimated by many of them that nearly a million dollars have been expended within the last few weeks in this city in the purchase of supplies and outfit for the Alaska mines. Since the news was published that the Canadian government had imposed a high protective duty on all things coming across the border, and would send a force of mounted police to collect the duty, there has been a marked falling off in purchases.

No definite plan has yet been decided upon by the projectors, except that they contemplate holding a meeting Monday with a view of securing the assistance of the Chamber of Commerce and Board of Trade in furthering the movement. It is thought that the popular sentiment throughout the country will result in substantial assistance from other states, and steps will be taken as soon as a temporary organization is effected to have the merchants of Seattle, Tacoma and Port Townsend unite in the project.

SEATTLE, Aug. 3.—At a meeting of the Chamber of Commerce, in conjunction with the merchants and shippers of the city, resolutions were adopted memorializing the Secretary of the Treasury to abolish the privilege heretofore extended to Canadians for bonding goods in shipment through American territory; also to rescind the action establishing support at Dyea, Skagway and Circle City. This action is taken in retaliation for what is deemed the harsh and unjustifiable measure proposed by the Canadian government to levy an import duty on the personal outfits of miners and prospectors going from the United States into the Klondyke district.

KLONDYKE POLICE.

Advance Party Leave Here on Saturday to Prepare for the Main Force.

OTTAWA, Aug. 3.—The minister of the interior has arranged for the dispatch of seven mounted police from Victoria next Saturday for the Yukon. They will go to Dyea and on to Lake Tagish, where they will prepare timber for building barracks. They will be followed on the 15th inst. by 25 more police, who will pack over the summit such provisions as is possible, and on the 22nd inst. another detachment of twenty men will be sent after them, making in all, with the men there, 72 mounted police who will be in that territory by the end of August.

REGINA, N.W.T., Aug. 3.—Sergeant Service and Constables Dunn, Rice, Schwartz, Almark and Coates left for the Yukon gold fields this morning. Assistant Commissioner McIlree, who took the last detachment to the Yukon, accompanies them to Bennett lake, where boats will be built. Commissioner Herchmer was on the train returning from Ottawa, and extended his journey a few stations westward to give final instructions. Another party will leave in a few days for Lake Tagish, on the border of British Columbia and Alaska, to build a customs house station.

ALL BOUND FOR KLONDYKE.

East and West Report the Same Story of Excursions Organizing.

TORONTO, Aug. 3.—Three hardy Canadians last night registered at the Walker House. They are leaving to-day for the Klondyke gold fields. They are M. D. Campbell and James Finnie, of Oshawa, and E. A. Turker, of Guelph. These plucky Canadians will take the Hudson Bay route, believing they will get through sooner by this than by any other route, for the reason that large numbers are going by other routes. They take a year's supplies with them. Some were purchased here and they intend to get more in Winnipeg. Finnie and Campbell represent an Oshawa syndicate. Tucker represents Guelph capitalists. They are to go direct to Dawson City.

SAN FRANCISCO, Aug. 3.—The steamer Noyo will sail to-morrow morning with 140 passengers for Dyea, Alaska. Of the passengers already booked ten are women, who will make the journey over the Chilkoot pass to the Klondyke gold fields. Two others are Mayor A. Scott, of Springfield, Ill., and son. Mayor Scott resigned office to seek his fortune in the north.

TACOMA, Aug. 3.—The steamer Queen, which arrived from Alaska yesterday, reports that Rev. Alfred Kummer, of Oakland, Cal., went ashore at Skagway with Captain Carroll of the steamer to warn everyone not to attempt to enter the Yukon country before next spring. The captain says that not even those at Skagway or Dyea will be able to reach the interior this winter.

WINNIPEG, Aug. 3.—The Yukon fever has attacked the people of Carberry and several citizens have organized a syndicate, sending forward Dr. Shaw and Mr. A. McKenzie to look over the field and locate claims for a party to follow in the spring. They left for the West last evening.

AUSTRIAN FLOODS.

Hundreds of Lives Lost and Widespread Destruction of Property.

VIENNA, Aug. 3.—The danger of serious floods here is averted, as the water is beginning to subside, but it is still necessary to take all precautions. Many casualties are reported from the provinces. Eighty-five persons have been drowned in Silesia, and sixty between Iachl and Laussen; while nearly 100 persons are missing, many of whom are reported to be drowned. At Johannisbad, in Bohemia, there have been seven fatalities, and from almost every district come reports of widespread destruction among crops and cattle.

What causes bad dreams is a question that has never been satisfactorily answered; but, in nine cases out of ten frightful dreams are the result of imperfect digestion, which a few doses of Ayer's Sarsaparilla will effectively remedy. Don't delay—try it to-day.

STEP TOWARDS PROTECTION.

This is How a German Paper Interprets England's Action.

BERLIN, Aug. 3.—The Kreuz Zeitung says that the renunciation of the commercial treaty with the German zolverein is Great Britain's first step towards the protectionist system, and adds: "But there is no ground for serious alarm, because she has her carrying trade to protect and retaliation to fear. Moreover, a one-sided preference shown to Canada might provoke a conflict with the United States."

The National Zeitung says that Great Britain is herself the nation most interested in the conclusion of a new treaty, and that Germany may gain much by skillful, cold-blooded diplomacy.

The Vossische Zeitung says: "So far as Germany's relations to England are concerned, it is a matter of indifference whether we have a treaty or not."

The Berliner Tageblatt says: "Great Britain's intention to join the mother country and the colonies in customs union will not induce her to restrict British trade with Germany any further than is necessary to attain this object." The three last named papers all agree that it is quite out of the question for England to adopt protection.

U. S. MONITOR DAMAGED.

A Mishap Which Will Lay Up the Puritan for a Month.

NEW YORK, Aug. 2.—The Journal and Advertiser says: The monitor Puritan was damaged by an accident on Saturday, when the shafting of her rudder was wrecked. Quartermaster Hawkes was directed to go down to detach the steam steering gear from the other supplementary steering apparatus. It descended into the chamber and pulled out the crank-pin which connects the in-board and out-board shafting.

In an instant the place was filled with escaping steam, and the steel shaft whirled around horizontally. The rudder castings were smashed, and various other parts of her steam steering engine attachments cracked and broken. New rudder castings have been ordered from Philadelphia, but it will be month before the Puritan is ready for regular service. This mishap will cost the government about \$5,000.

THE PEACE CONFERENCE.

Tewfik Pasha Succeeded in Getting a Further Delay.

CONSTANTINOPLE, Aug. 1.—The peace conference held a three hours' session yesterday, and the result is a further postponement of the actual signing of the peace preliminaries. The ambassadors presented the remaining sections of the drafts, including those providing for a limited control of Greek finances, and articles defining the time and method of evacuating Thessaly.

Tewfik Pasha, in turn, true to his well-known methods of delay, presented a series of amendments to the articles previously suggested. This will necessitate further discussion.

The Sultan has instituted a new naval commission, with himself as president, to project a scheme for the reconstruction of the Turkish navy in accordance with modern ideas.

THE BALTIMORE ABANDONED.

She Will Remain on the Rocks in Belle Isle Straits as a Warning to Other Vessels.

St. John's, Nfld., Aug. 3.—The British steamer Baltimore City, Capt. Matthews, from Montreal for Manchester, which went ashore on Flat Island in the Straits of Belle Isle on July 20, has become a total wreck. The negotiations for getting her off the rocks and towing her to Halifax have been abandoned, as it has been found impossible to move her. The abandoned hull will remain there as a warning to other vessels.

TAKING NO CHANCES.

Insurance Companies Will Not Issue Policies to Cover Klondyke.

CHICAGO, Aug. 3.—Many of the principal life and accident insurance companies have issued positive instructions to their general agents in the United States and Canada against assuming any risks upon the lives of persons contemplating a visit to the Klondyke.

King George Wont Abdicate.

ATHENS, Aug. 3.—M. Ralli, the premier, denies that King George has threatened to abdicate. This is interpreted to mean that Germany has probably consented to some modified control of Greek finances, acceptable both to Greece and to Europe.

CECIL RHODES PAYS UP.

Report That He and Director Beit Have Settled With the Transvaal Government.

LONDON, Aug. 4.—The Morning Post says that Cecil Rhodes and Alfred Beit, a former member of the board of directors of the British South Africa Chartered Company, have paid the Transvaal government £250,000 as indemnity for the Jameson raid. It has been believed for several months that Messrs. Rhodes and Beit would bear between them the entire cost of the raid, the legal expenses of Dr. Jameson's trial and the indemnity to the Transvaal. As Mr. Rhodes' profits for the year ending last May are known to have been about £500,000 sterling, and as Mr. Beit has also had one of his best years, neither of them is likely to be ruined if the report in the Morning Post is correct.

NEWS OF THE PROVINCE

Special Commission Bound for the Yukon—Vancouver After the New Trade.

Salmon Run Continues Enormous—Customs Revenue—News of the Interior.

(Special to the Colonist.)

VANCOUVER.

VANCOUVER, Aug. 3.—A private dispatch states that the Canadian government are sending a special commission to the Yukon this month, consisting of astronomers, surveyors, scientists, geologists and telegraph and telephone experts. Telegraph and telephone lines will be built between the principal mining camps.

The Vancouver Board of Trade held a meeting last night to devise means whereby a portion of the Yukon trade may be diverted to Vancouver. A resolution was passed appointing a committee, composed of H. Bell-Irving, W. H. Ker, S. Oppenheimer and J. C. McLagan, to confer with the Union Steamship Company and other companies, if necessary, opening negotiations with a view of putting on a regular line of steamers between Vancouver and Dyea. Westminister and Nanaimo will be asked to cooperate. Mr. Ker and Mr. Marpole of the C. P. R., spoke at some length. They hoped that Vancouver would get their share of the trade. Over 50 merchants were seen by a Colonist reporter. There was scarcely an exception to the general remark made by them that Vancouver had been tardy in recognizing the importance of the Yukon trade.

Peaches grown in Nelles orchard, Capilano Creek, North Vancouver, are equal in appearance and flavor to the best imported fruit.

There were 71 cases only in the police court during the month of July.

The customs receipts for Vancouver for July were \$50,225. The imports \$138,900, exports \$82,548. The increase over July 1896 in duty collected was \$14,530.

WESTMINSTER.

NEW WESTMINSTER, Aug. 3.—The salmon run still continues enormous. Fish are selling at 2 cents each and the boats are limited by the different canneries to 300 each. The Automatic Can Company is doing an immense business in cans.

The headless skeleton of an Indian woman, the discovery of which created so much excitement lately, has turned out to be one of the many bodies lying in an Indian cemetery at Howe Sound for the past 15 years.

Charles Reginald Major, son of C. G. Major, died after a long illness last night.

The customs receipts for Westminister for July amounted to \$18,934, being \$9,000 more than for the corresponding month of last year. The imports were over \$64,000 and the exports \$128,800, an increase in imports of \$83,500 and in exports of \$34,600 over July, 1896.

Prof. Prince, Dominion commissioner of fisheries, accompanied by Messrs. Hewitt Bostock, M.P., and Anlay Morrison, M.P., attended a meeting of fishermen at Steveston on Saturday night. Mr. Morrison was voted to the chair and introduced Prof. Prince, who said he would like to hear the views of the meeting as to the conditions upon which they would consider it advisable that fishing licenses should be granted. Under this heading they might treat with Japanese exclusion, also the weekly and yearly close season, the free importation of fish, and, finally, the matter of traps. Then Messrs. Gunn, Angus Morrison, Price, Spreckles, McInnes, Ross, Stead, and a number of fishermen spoke, all dwelling upon the absolute necessity of confining licenses to British subjects, and particularly to registered provincial voters. There was entire unanimity that traps should be done away with, and a stiff duty put upon United States fish.

NANAIMO.

The special meeting of the Miners' and Mine Laborers' Protective Association, held at 10 o'clock on Saturday morning in connection with the notice given by the New Vancouver Coal Company of their intention to shut down the Protection shaft, was very fully attended. The matter was, however, laid over until a meeting to be held next Saturday afternoon, to allow the completion of negotiations and business connected with the proposal and its relation to the Union. The election of officers of the Association for the next six months also took place, the following being elected: President, Charles Santy; vice-president, James Harley; agent, Ralph Smith; treasurer, James Bradley. Mr. Ralph Smith was appointed the delegate to represent the Nanaimo Association at the annual Labor Congress to be held under the auspices of the Trades and Labor Councils of the Dominion in Hamilton, Ont., in September.

There were 17 births, 5 marriages and 4 deaths registered in this city during July.

Ninety-five mineral claims were recorded here during July, a decrease from previous months, and supposed to be due to the Klondyke excitement having drawn prospectors away from this district.

The inland revenue collections for July were as follows: Malt, \$836; tobacco, \$120; spirits, \$224; a total of \$1,180.

KAMLOOPS.

Rev. Mr. Osborne recently united in marriage Mr. Frank Greatrex and Miss Alma Seeley, daughter of Wm. Seeley, River street.

O. S. Batchelor has obtained a week's leave of absence, W. J. Norfolk doing duty at the gaol while he is away. Mr. Batchelor will visit Douglas lake, and if he can make satisfactory arrangements with Mr. J. B. Greaves for a further lease of his ranch, will leave for the Klondyke either this fall or early in the spring. Mr. Greaves has leased Batchelor's ranch for the last three years. This ranch contains 1,500 acres of very fine meadow land under crown grant.

CATARRH

Mrs. Dobell, of London, Ont.,
Cured for 25 Cents

Doctors Could Help, but Couldn't Cure—Dr. Chase's Catarrh Cure Released the Prisoner, and To-day She is as Well as Ever—She Says it is a Great Remedy

"Yes, I am Mrs. Dobell," said a comely, pleasant-faced woman at her home on Horton street to a News reporter to-day, "and I will very gladly tell you what you want to know. About three years ago my husband was very ill, and I had frequently occasion to rise in the night and go for a doctor or to the druggist. In my hurry I often neglected to properly clothe myself, and contracted several heavy colds, which turned at last to chronic catarrh. I tried doctors, who helped me, but did not cure me, and several special catarrh medicines. I was relieved but not cured. I was suffering intolerably when Mr. Shuff recommended me to try CHASE'S CATARRH CURE, and it began at once to help, and in about two months had entirely cured me. I cannot speak too highly of this remarkable medicine, and cheerfully recommend it to all sufferers from catarrh." The blower included is a great help to sufferers.

genuine surprise to a very large number. The contracting parties were Mr. Thos. Gannon, the well known horseman, and Miss Louisa Wilson, second daughter of Mr. John Wilson, the cattle king. The happy couple took the first train for Kamloops to spend their honeymoon.

The many friends of the Rev. John Chisholm, formerly of Kamloops, but now of Dunbarton, Scarborough Township, Ont., were much pleased to meet and greet him during his two days sojourn here last week. Mr. Chisholm came to British Columbia in 1884, being sent by the Presbyterian church authorities to organize their work and establish missions in the Nicola valley and from hence began a labor of mission work in the various surrounding districts of Kamloops, Ashcroft, Shuswap, North Thompson, Spallumcheen and Okanagan. Mr. Chisholm's aptitude for this important work and his splendid physique made him most successful in his missionary efforts for upwards of two years, and in 1887 he came to Kamloops and here was mainly instrumental in forming the nucleus of Presbyterianism, and also in the erection of the handsome edifice now used for worship by that body, and to which he was called as its first pastor. Mr. Chisholm severed his connection here in 1890 and shortly afterwards received a call from the church at Dunbarton, Ont., over which he still presides and where he is highly esteemed.

REVELSTOCK.

The Postmaster here has received notice that the contract for the Big Bend mail service has been awarded to J. Neilson.

The Lanark mine, at Illecillewaet, was second only to the Slocan Star in its shipments of concentrates last month through Revelstock.

The customs returns from this subport for July show a total value of imports of \$5,112.40; duty collected \$1,281.92.

The C.P.R. round house has been burned down. The building was frame and brick veneered inside. The company lost a consolidated engine, a rotary snow plough and engine No. 592.

ASHCROFT.

The Indian who shot Roy Hagin near Bridge creek, a few weeks ago, named Johnny Buck, has confessed to the officers and in open court that he did the shooting. He said he intended to rob his victim, but as he fell young Hagin said: "My God, who could have shot me?" This frightened the Indian, as he thought Hagin was talking to another man, and he mounted his horse and rode away. Hagin is now out of danger.

GOLDEN.

The Golden Era says: Hon. Col. Baker has made the C.P.R. a gift of 9,000 acres of land in Cranbrook in consideration of their making it the divisional point and establishing their workshops there for the Crow's Nest road.

E. Clark, of Windermere, has 40 acres in crop this year, of which 30 acres are in oats, and 10 in wheat. He says the crops in the Windermere district are looking exceptionally well this season. Dr. Duncan, secretary of the Provincial Board of Health, and Capt. Clive Phillips Wolley, provincial sanitary inspector, are on a visit to East and West Kootenay to inspect the sanitary condition of the various townships. They have already inspected Golden.

W. G. Neilson, manager of the Beaver mills, has returned from Macleod, where he had been to see Mr. Haney, manager of construction, regarding the timber supply for the Crow's Nest road. Mr. Neilson secured the supply of the piling required on the work, and will probably ship about three million feet of timber for the line. He has made vigorous arrangements for getting the timber out, having secured thirty men from Winnipeg, and having brought a number of horses from Calgary for hauling purposes.

ROSSLAND.

It is said that there are 300 to 400 children of school age in Rossland, while the schools have seating capacity for only 100 children.

The Rossland Miner says of its Nelson namesake: "The editor of the Nelson Miner wired the Rossland board of trade last night that he was circulating a petition to the Dominion government for the imposition of an export duty on pyrrhotite and chalcopryite ores. Seeing that Nelson produces neither of these ores, while Rossland does, it strikes us as being a trifle galling for the Nelson Miner's editor to do anything of the sort. If he were to circulate a petition for an export duty on all the different classes of ores produced in and about Kootenay, we would have nothing to say, but his present action, unsolicited by the people he proposes to tax, is the height of impertinence."

The contract for the construction of Rossland's sewerage system has been signed and sealed, and it now remains for Contractor W. B. Davey to start the work as soon as possible. He states that he will begin excavating at the corner of Thompson avenue and St. Paul street, which is the lowest elevation in the system. The sewers will be built from that point on a gradual ascent, so that

GRAND FORKS,

KETTLE RIVER MINING DIVISION, B.C.

Situated on the Banks of the Kettle River and the North Fork Junction, in the vicinity of the many valuable locations recently made on the Colville Reservation at Christina Lake, the North Fork of the Kettle River and the Eastern Slopes of Boundary Mountain.

THE TOWN OF GRAND FORKS

Has sprung into existence within the last year; early in the spring the place consisted of a few houses. Owing to the rapid opening of the Mines and the travel and traffic consequent on between 4,000 and 6,000 claims having been located, there are now estimated to be over 200 houses and 500 people residing in the town. The principal buildings consist of a three-story and several two-story Hotels, General Stores, Butchers, Bakers, Post Office, The Grand Forks Miner Newspaper Office, Brewery, Assembly Rooms, &c., &c., and all the usual Dry Goods, Millinery, Furniture and other businesses, which with several fine dwellings go to make up a busy town. Surveyors, Lawyers, Assayers, Real Estate Agents, Share and Mine Brokers are now established in business in this place.

AN APPLICATION

Is now pending to the Provincial Legislature for an Act of Incorporation, and notices given of two separate Private Bills for Water, Electric Light and Power Companies, also Telephone, Water, etc. All in connection with and to supply the Town of Grand Forks and Suburbs.

LOTS OF 25X120 FEET

Are now selling in the Townsite as at present laid out at prices from \$250 to \$550. These lots run about 14 to the acre.

Suburban + Five-Acre + Blocks.

Equal to about 70 Townsite Lots, will be offered for sale on Most Reasonable Terms and at prices which are less per acre than the price of a single Townsite Lot.

THE SALE IS NOW ON

And affords opportunity for investment in property in a District now universally acknowledged as the coming Mining Centre of the Province.

These Blocks are Adapted for Residences, Orchards or Future Subdivision.

OF THE FUTURE PROSPECTS

Of the District, but few words are necessary. Three Lines of Spokane Falls & Northern are reported to be ready to build in the spring; the Columbia & Western Line, as may be seen at the Lands and Works Office, is projected through the land; The People's Line from the Coast also passes this point, and the C.P.R. Surveyors have run lines through the land during the past year.

A POWERFUL MINING & SMELTING CO.

Report their intention of building a 500-Ton Smelter in the close proximity of this land, and the owners have been applied to for a site for this purpose. Such an industry is warranted from the fact that the Great Volcanic Mine, said to be the largest deposit of copper gold ore now known, purposes to smelt the product of their mine at this point. The Projected Roads make it the most convenient receiving and shipping point, and a leading Bank is said to be about to open an Agency, as the employment of the required labor will circulate a no small sum of money each month.

Maps of the District, Subdivision Maps, etc., can be seen and all information as to Prices and Terms obtained on application to

SLOCAN CITY.

Slocan City and Brandon have been created a school district. Mr. O'Neill, secretary of the board, has called the election of trustees for August 10 at the Brandon school house. D. Wilson, provincial school inspector for the Kootenay district, arrived in the city last week, and on Thursday morning met with the town commissioners. Mr. Wilson said that there is no money available for a school building at the present time, but there would be furniture provided immediately.

The Brandon school will open August 9, with Miss Annie Gerdwood as teacher. Active work is to be started on the Exchange group on Springer creek at once. J. Morrish, mining engineer, from London, has arrived in the city. T. J. Leckie, who will be in charge, has also arrived, and has been busy examining the property. Mr. Morrish stated that his company will prosecute work vigorously from now on. Later they expect to build a concentrator. The group, consisting of the Exchange, Victoria, Skoocum and Silver Plate, Mr. Morrish stated, were purchased, not bonded, for \$5,000 by London capitalists, and will be taken over by the concern known as the New Gold Fields of British Columbia, with a capital of \$250,000, of which Sir Charles Tupper is the head. The payments run over a period of nine months.

Speaks From Experience.

Mr. J. W. Tomlinson, Amherstburg, Ont., speaks from experience when he says: "I am well satisfied with Doan's Kidney Pills. They are undoubtedly the best medicine on the market for any one afflicted with urinary or kidney troubles, such as pain in the back, tired feeling, cramps, numbness, etc. They cured me and removed all my pains and aches."

THE WAY INTO THE YUKON.

The Seattle Times is disposed to take a very reasonable view of the tariff on goods going into the Yukon, and very justly says that it does not lie in the mouth of the people of the United States to object, and for two reasons, one being that the United States set the example of a high tariff on imports, and the other that every overture on the part of Canada for reciprocity has been systematically repulsed. Our contemporary labors under a most extraordinary delusion in regard to the routes into the Yukon, and says that no man can set foot on Canadian territory without passing over the soil of the United States. As the Times seems to wish to get at the facts of the case, and as no good, but only much disappointment, can come to our neighbors from misunderstanding, we will, at the risk of laying ourselves open to the charge of rehashing old straw, state the case as it really is.

There are seven routes by which the Yukon country can be entered, viz.:

1st. By way of the Yukon river itself, in which British subjects have absolutely the same right of free navigation as American citizens. This right was conferred in the first place by the treaty with Russia in 1825 and was confirmed by the treaty of Washington. It can never be abrogated, if the Russian treaty holds good. If it is dependent upon the treaty of Washington, it can only be abrogated by denouncing that treaty, and this is a most unlikely thing, seeing that under the treaty of Washington United States citizens get the right to free navigation of the St. Lawrence and the St. John rivers, which are of vastly greater importance to them than any possible privilege the people of Canada can ever enjoy in any of the rivers flowing across Alaska.

2nd. By way of the passes at the head of Lynn Canal. The ownership of the head of Lynn Canal is at present undecided. The United States government is in occupation, and, until the boundary has been defined, must be treated as possessing sovereign rights there. Except during those portions of the year when the Yukon is navigable, the route into Alaska is likely to be from the head of Lynn Canal. To reach Alaska it is necessary to cross more than 600 miles of Canadian territory. It is, therefore, vastly more to the advantage of the United States than of Canada to arrive at a *modus vivendi* as to the transit of goods across the passes into Yukon waters.

3rd. By way of Taku Inlet. The same observations apply to this route as have just been made in reference to the passes at the head of Lynn Canal.

4th. By way of the Stickeen and Teslin Lake. The right of British subjects to navigate the Stickeen is the same as that of United States citizens, being dependent upon the same treaty provisions as those mentioned above. The land route is nowhere near the United States. It is an easy route, terminating at Teslin Lake, a splendid inland sea, drained by the Hootalinqua, the finest tributary of the Yukon. If the Canadian government should put its custom house for the Yukon on the Stickeen or at Teslin Lake, all traffic over the passes would have to cease at once. In the very improbable event of any attempt being made to interfere with the free transit of goods up the Stickeen, every international question could be at once avoided by the construction of a light railway from the end of the route on the Stickeen, to some point down the Coast in British Columbia. Such a project is even now

in contemplation for the purpose of opening the highly mineralized lands in the southern part of the Cassiar district. It is a project of great value.

5th. By way of the Stickeen to Dease Lake, thence by the Dease and Frances rivers to the Pelly, a very easy route so far as grades and watercourses go, and having the advantage of tapping the gold-bearing areas of the Yukon from the East, in which direction they undoubtedly extend for a long distance. The observations just made in regard to the navigation of the Stickeen apply to this route.

6th. By way of Central British Columbia. The feasibility of constructing a railway northward through Central British Columbia to the Yukon is beyond all question. An easy route exists through a country for the most part well fitted for settlement, and all highly mineralized. This route would open the rich valleys of the Nichaeco and the Babine, with their matchless lake system. It would afford a road to the rich placers of the Omenica, develop Cariboo and reach the coast at Bute Inlet.

7th. By way of the water system of the Great Mackenzie, that is from the East. The first party is now on its way from Edmonton over the route. If the Yukon gold fields are found to extend all the way to the slope of the Rocky mountains as seems very probable, as the streams flowing from the interior all carry gold, this route is likely to be utilized at an early day, by the construction of a railway as far North in the Mackenzie valley as the most available pass. In view of the certainty that considerable travel will go by this route, the C.P.R. is extending the railway from Calgary to Edmonton further North so as to reach Athabasca Landing.

We place these facts before the public in this brief epitome, so as to cover the whole subject in a single article, and show how very far Canadians are from being at the mercy of the United States in regard to the right of way into the Yukon.

WORK FOR THE FOOL-KILLER.

If the fool-killer is not busy, he will find a vacant job in some of the newspaper offices of the United States. It would be impossible to point out all the diverse indications of temporary insanity or permanent imbecility which some of those papers are exhibiting, but a few may be mentioned. The San Francisco Examiner has some pictures of steamboat travel on the Stickeen, which are about as little like the original as can well be imagined, and the letter-press description is as bad as the pictures. The Stickeen happens to be anything else but a very bad stream. Another paper has a picture of navigation down the Yukon. If any man ever steered a boat down rapid water the way the fellow in the picture is represented as doing, he would deserve to come to grief on the first rock and would be morally certain of doing so. The New York Herald has a map indicating where "gold-bearing rock" is found on the Yukon. "Gold-bearing rock" is good. The Herald is apparently under the impression that the gold which the miners bring down is quarried out of ledges. The alleged distribution of the gold-bearing rock is in keeping with the suggestion that the Klondyke mines are in quartz. The area is represented as beginning on the shore of Behring Sea and extending up both sides of the Yukon just a little way across the Canadian Boundary. The supreme absurdity of this every one out here knows, but apparently it is necessary to tell the New York Herald that gold has not been discovered along the Yukon below Circle City, while it has been discovered in nearly every tributary of the Yukon above Circle City. That is to say, if the Herald will print its map again and turn the black part, representing the gold area, end for end, so that the greater of it will be in Canada and a small corner will project into Alaska, and will add that the gold is not found in rock, but in gravel, it will be right. It is absurdly wrong now.

This is the sort of pabulum upon which the American public is being fed pictorially as to the Yukon gold fields. But so as not to put ourselves in the same ridiculous position as the Herald, we wish distinctly to state that we do not aver that the lower Yukon valley is non-auriferous. We incline very strongly to the opposite opinion and believe that the great tributary river, Tanana, and its branches will well repay prospecting.

As some of the American newspapers persistently assert that there may be some doubt as to the ultimate ownership of the Klondyke region, and as a few of our own people may be misled by these claims, it may be well to say that there is absolutely no reason whatever for supposing that the Klondyke may be in United States territory. The boundary is the 141 meridian, and the location of that meridian has been fixed by independent observations made by the government of Canada and that of the United States. There is a small variation between the lines as laid down by these two sets of engineers, and probably a third, or joint series of observations, will have to be taken; but if Canada accepted the meridian as found by the United States observers it would not affect Klondyke in the remotest way. We are not quite sure which of the two parties located the meridian furthest east, but think it was the American party. The

divergence varies at different points. In one place it is only six feet. The only possible difference the exact location of the meridian can make is that it might affect the ownership of any mining claim immediately in the neighborhood.

The Portland Oregonian is so grieved at the work being done by the COLONIST that it attacks the editor of this paper by name, and, ridiculous as it may seem, for his treatment of the Venezuelan question in January, 1896. The editor of the COLONIST being then editor of the Seattle Times declined to accept the wild American jingo view of the Venezuelan question, and had the pleasure of seeing the fire-eaters swallow their words. For this the Oregonian finds it hard to forgive him. He will manage to struggle through life some way without its forgiveness.

It is not likely that the United States treasury officials will pay the least attention to the demands of the people of Seattle for the abolition of the sub-port at the head of Lynn Canal. Even if the demand were complied with it would make no difference this year, and by next spring Canada will be perfectly independent of favors from the United States for a right of way into the Yukon.

The San Francisco merchants are greatly annoyed at the falling off in their sales to Yukon prospectors since it was announced that duty would be collected on foreign goods. These people are very absurd. The Argonaut chaffs them very badly, and suggests that the Americans on the Yukon should set up a provisional government and get President McKinley to send an annexation treaty to the Senate.

The proposal is made that, instead of attempting to collect a royalty from the Yukon mines, the government should tax each claim at its fair value and collect the tax in the ordinary way. Such an impost could not be evaded and would be a much more sensible arrangement than the proposed heavy royalty.

At least two members of the Dominion Cabinet should come out to the Coast at the earliest possible day, and stay here long enough to get closely in touch with the new conditions that have arisen here.

If the Spaniards have killed as many rebels in Cuba as they say they have, it becomes a problem as to how there can be any left.

The German papers do not like the idea of Great Britain in denouncing those commercial treaties. They threaten retaliation.

It is safe to say that more than 100,000 people are planning to go into the Yukon next year.

Cook—Oh, lot's of things. We learned, for instance, how to wear our aprons in the right way, and after that we had lessons every day in tasting what the teacher cooked.—Boston Transcript.

THE KLONDYKER.

Gold in my haversack. Gold held in the belt at my girth; Nuggets which I have engined Out of the maw of the earth.

Gold in the misshapen bags Made of my sleeves with a rude Skill. There is wealth in my rags, Ay, and I'm dying for food.

Gold like the soil of the land, Gold that is free as the dirt; Gold in my trousers' legs and Gold in the fur of my shirt.

Who is there wealthy as I? Who has equivalent cash? Heavens, I wish it could buy Liverwurst, pig's feet and hash.

Gold in my hat and my socks— (What there is left of the same), Little irregular rocks, Root of all evil and shame; Gold in my handkerchief; gold Packed in my underwear legs— Gods! How I'd like to enfold Three stacks of wheat and some eggs!

Well, let me die if I must, Chilled and famished and cold; Let me sink here with my dust, Ay, and my nuggets of gold.

Death, ghastly death, come to me, Wealthiest man among men, Come with sweet dreams. Let me see Merry old Clark street again.

Let me look down its long lines (Here from my deathbed of ice), Glaring with red-painted signs Telling of food and its price. Bring me the uproar and push, Show me those supper-hour scenes, Plutus am I, but I wish Gold could be eaten like beans.

THE GREATEST FACT OF ALL.

Klondyke is in Canada. It is the upper end of the continuation of the rich gold bearing belt that begins at Waneta and, extending through the Trail Creek district on up through the Lardeau to and through the Alaska line makes British Columbia and Western Canada the wonder of the mineral world. The farther up you go the richer it gets.—Trail Creek News.

WHEN CERTAIN FOLK FALL OUT, ETC.

The World has no desire whatever to detract from, or belittle in the slightest degree the efforts of Wm. Templeman, of the Victoria Times, in the cause of Liberalism in this province. When, however, such journals as the Nelson Economist go so far as to assert that "the publisher of the Victoria Times may be credited with having been the first to unfurl the banner of the Liberal party to the breeze in this province," we have to give the sentence an emphatic contradiction, as it is as devoid of the truth as any statement the Economist or any journal can possibly make. Long prior to Mr. Templeman's advent to British Columbia the late Hon. John Robson and John Kirkland, Dr. Milne and J. C. McLagan, of the World, but for several years conductor of the Victoria Times, had unfurled the banner of Liberalism, as thousands in Victoria and elsewhere throughout British Columbia can attest, as well likewise the files of the Times. The Economist, if it desires to earn its spurs, as we believe it does, will doubtless take heed to the lesson it has thus been taught, and hereafter it should not be quite so economical of the truth and facts.—Vancouver World.

All the above enumerated property is in first-class condition and will be sold on hire.

Also 31 acres of land more or less, fronting on a nice sheltered bay on Cowichan Lake, about 15 acres is alder bottom land with a good log house thereon. This property is situated about 5 miles west from the hotel, and is a very desirable piece of property for any wishing to have a summer residence. In connection with the hotel the proprietors run a stage from Duncan's station three times a week, carrying U.S. mails and passengers. The purchaser of the property will have the privilege of buying at a valuation the stage, horses, cows, chickens, tools, spirits and provisions now at the hotel. The business is increasing yearly, and is well patronized by tourists from all parts of the world and British Columbia. This is the fisherman and hunter's paradise. Terms cash.

A \$5,000 HOTEL GIVEN AWAY.

PLAN OF SALE.

The lots in blocks numbered 2, 3, 6, 7, 12 and 13, will be sold as follows: Corner lots \$150 each; inside lots at \$100.

Lots in blocks numbered 1, 4, 5, 8, 9, 10, 11 and 14, will be sold at \$100 each for corner lots, and \$75 each for inside lots.

Terms will be one-third cash, balance payable in three and six months, with interest at 6 per cent. per annum.

The property is held under Crown grant and title is warranted.

The vendor has contracted for the erection of a fine hotel containing 26 rooms, at an expenditure of \$5,000; and to stimulate the quick building of Texada City, will give the hotel and ground upon which it stands (half an acre) as a prize to be drawn for among the first 300 paid-up purchasers of lots (each lot being entitled

to one draw). The following well-known business men of Vancouver will superintend the drawing for the lot-holders: J. C. Keith, Esq., Director of the Union Steamship Company, Vancouver; G. W. DeBeck, Esq., of McKinnon & DeBeck; J. R. Seymour, Esq., Wholesale and Retail Druggist, Vancouver.

The drawing will take place in Vancouver as soon as possible after the lots are sold, and the time and place of drawing will be advertised in the daily papers of Victoria, Vancouver, New Westminster and Nanaimo.

Parties contemplating investing in Texada City property are advised to make early application for lots, so as to take advantage of the drawing for the hotel, which is limited to the first 300 paid-up purchasers only. For further particulars apply to the following agents:

TO-DAY at 2 o'clock Auctioneer Hardaker will commence a large sale of valuable furniture and effects at the residence of Mrs. Stoddart, Garbally road.

In the issue of the London Graphic of the 17th July appears a picture of all the colonial officers who took part in the Jubilee celebration, and that of Lieut.-Col. Gregory is a particularly good photograph of the gallant commander of the First Battalion. He, however, is the only one present in muff.

It is understood that Lieut.-Col. Peters, D.O.C., has advised headquarters that the members attending the late class of instruction in the armament of Fort Macaulay have all passed the requisite examination very creditably. It is not the intention to issue special certificates for this course, but the fact will be duly noted in general orders.

An additional six months for breaking jail was added to Harry Jensen's unexpired term of imprisonment yesterday by Mr. Justice Drake. Jensen having decided on a speedy trial. The prisoner, it will be remembered, escaped from the provincial jail some weeks ago, and during the interim between his taking French leave and his recapture last week was masquerading in and about the city in female attire.

The monthly meeting of the Friendly Help Association was held yesterday thirteen ladies being present. During the month of July twenty-two families were assisted; fourteen of these received clothing, three fuel, one furniture, one groceries and one bread for the month. The association thankfully acknowledges clothing from Sir H. P. Crease, Mrs. A. A. Green, Hon. Col. Baker, Mrs. Irvine, Mrs. Johnson, Mrs. B. Seabrook and a friend; carpet matting and boots from Mrs. Curwen; money from Mrs. Burkholder, and \$5 from a former recipient, out of gratitude for timely assistance in time of need.

ROBBERY on Saturday evening—arrest the same night—trial and committal on Monday—a speedy trial Tuesday—and sent up for eighteen months. Such is the brief chronicle of what befel Winterbottom, the enterprising burglar, who went a burgling on Douglas street last week. Winterbottom as soon as he was caught seemed to be in a great hurry "to get the thing over," and in his haste would hardly give the ink on the depositions time to dry before electing to stand a speedy trial. Yesterday morning he was brought before Mr. Justice Drake and promptly pleaded guilty, sentence as above being recorded against him. Of the booty gathered up at Mrs. Jenkinson's house everything has been recovered except the small sum of \$2.65, out of the \$60, which Winterbottom had had time to "blow."

SERGEANT MACLEAN and Gunner Nafel, two of the Victoria contingent who attended the meeting of the Provincial Rifle Association at Nanaimo last week, returned from the Coal City on bicycles on Sunday. Both were in uniform, and as a test of endurance this ride proved to be a corker, as the weather was exceptionally warm and a forage cap is not a too ample covering for the head at any time. Still, in spite of the heat, the run home was done in less than twelve hours. A start was made at seven in the morning, and the road all the way down to Duncan's was found in good condition, although somewhat dusty. At this place a halt was made for luncheon and about an hour and a half spent before the two again took to the road. Down as far as Shawnigan the wheeled was only average, while about eight miles, between Shawnigan lake and Goldstream, had to be covered on foot owing to the bad condition of the highway. The city was reached about 8 o'clock and neither of the riders appeared to be much the worse for the unusual ride.

FOREST fires are once more in session. Indeed the smoke is already commencing to crown the Olympians, and between the Summit and Shawnigan a modest beginning gives promise of renewed destruction of timber. All through the country districts the settlers are anxious for a rigorous enforcement of the Bush Fires act.

"INFRACTION of the public morals by-law," to wit, swearing, was the charge entered against one W. Paulson, at the lock-up yesterday afternoon, by Officer Clayards, who happened along as Paulson was giving vent to his warm feelings in still warmer language on the public street. The officer concluded that the cooler was just the place for Paulson.

THE fire department turned out three times yesterday, once to extinguish a grass fire on Beacon Hill, once to dampen some refuse burning at the north end of Bay street near Norris' tannery, and once to drill at the corner of Broad and Pandora streets. Fires are now raging on many of the surrounding hills, but reports of damage have not yet been received.

TRAFFIC over the C.P.R. just now is quite a la Klondyke, both freight and passenger departments doing a rushing business. Sunday's Pacific express was a few hours late owing to the unusual length of the train, and every car was filled to its utmost capacity. The same state of affairs is shown by the eastward-bound express—that going out to-day will include three sleepers, with every berth sold.

LAST night Pride of the Island lodge of the Sons of England held their regular meeting in the A.O.U.W. hall and initiated seven more Englishmen into their quickly growing order. After the business meeting came a social, several members rendering songs and recitations. Several more initiations are expected next meeting night, as the charter has been opened until the end of August in honor of the Queen's Diamond Jubilee.

SPEAKING on Sunday of the Fifth Regiment excursion to Seattle the previous day, the Post-Intelligencer said: "Seven hundred jolly Victorians came up the Sound on the steamer Kingston yesterday on an excursion, accompanied by the Fifth Regiment band, a splendid musical organization, whose leader is J. M. Finn. The Victorians scattered themselves over the city and put in a good half a day enjoying themselves as our Canadian cousins well know how. In the afternoon the band gave a concert at Leschi park, which drew a big crowd. In the evening the streets were enlivened by the presence of the visitors, and the band rendered a number of excellent selections on Second avenue near the Hotel Butler. The Kingston, returning at 9:30, took the Victorians home, more than pleased with their outing."

THE Methodists have, in the expressive language of this end of the century, made a hit in the selection of a site for their this year camp meeting—a fact eloquently testified to by the daily increased attendance. A more picturesque camping ground than Kanaka beach could scarcely be imagined, while the convenience of the tramcar service supplements the attractive environments. Yesterday Mr. McKeen, the Seattle evangelist, gave a stirring and eminently practical address in the morning, Rev. P. C. L. Harris conducting the afternoon meeting and Rev. Dr. Tinker of Delaware speaking in the evening. The attendance was satisfactory at each and every meeting, many leaving the hot and dusty town for the entire day, patronizing the refreshment room and enjoying all the combination delights of a picnic and camp meeting rolled into one.

MR. A. BELLINGHAM, the well known representative of British and American capital, who is at present a Driad guest, had a conversation with a Post-Intelligencer man in Seattle a day or two ago in the course of which he said that he is going home shortly to settle the estate of his father, who died several months ago. The British Columbia Development Company, says Mr. Bellingham, is employing horses in its pack trains, the company now owning 160 animals. He discussed the advantages of the White Pass over any other for reaching the placer mining districts from tide water, stating that it is 1,100 feet lower than the Chilkoote. The distance is twenty-seven miles from salt to fresh water, the delivery being made from the wharf at Skaguay to Toochi lake in two days. There is no portage at all by the route Mr. Bellingham advocates, and the rate for transporting freight is 15 cents per pound. The journey has, he says, been made in one and one-half days.

The Daily Papers Refuse to Publish an Advertisement Sent Out by Business Men of Victoria.

The Times Frankly Gives Its Reasons for Refusing, but the P.-I. Exhibits Gross Indecency.

Here is a little story that shows how much Seattle is afraid of Victoria's competition for the Yukon trade. Acting at the request of the citizens' advertising committee, the COLONIST Printing & Publishing Company forwarded to the Seattle daily papers the following advertisement:

THE YUKON GOLD FIELDS ARE IN CANADA.

Goods purchased elsewhere than in Canada are subject to Customs Duty on entering the Yukon. Strong force of Customs Officers and Mounted Police stationed at the Passes. Customs Certificates on purchases in Canada will prevent any delay from Canadian or United States officials.

VICTORIA, BRITISH COLUMBIA, is the best place to Fit Out and Sail from. All Steamboats going North call at Victoria.

G. A. KIRK, President B. C. Board of Trade, The letter accompanying the advertisement asked the papers referred to to send their bill to the COLONIST for payment. Yesterday the COLONIST received the following replies:

THE SEATTLE TIMES.
Aug. 2, 1897.
Colonist Ptg. & Pub. Co., Victoria, B.C.

GENTLEMEN,—Replying to your esteemed favor of July 29th will say that the enclosed advertisement has been submitted to the directors of the Times Printing Co., and writer is instructed to advise you that matter is not acceptable for publication, and we beg to decline same. Personally the writer regrets that he cannot honor your order.

Yours truly,
THE TIMES PRINTING CO.,
By C. A. HUGHES, Manager.

There can be no fault found with this letter, which is one that any business concern may properly write to another. While the spirit that led to the refusal of the advertisement is open to criticism, no objection can possibly be taken to the terms in which that refusal is conveyed.

The Post-Intelligencer sent the following letter:

in need of a spanking. The orders of the Colonist Printing & Publishing Co. for anything that it chooses to order are honored anywhere, but the Post-Intelligencer pretends to feel unable to insert an advertisement for a trifling \$20 without receiving the cash in advance. Of course no one will fail to take in the Seattle paper's object. It knew very well that no self-respecting business house would send the money and the advertisement after receiving such a letter. It had not the courage to refuse out and out to print the advertisement, nor the courtesy to refuse in decent terms. Its poverty of ingenuity was such that it could not discover how to decline a simple business proposition except in terms of insult. In every way in which the Post-Intelligencer has touched this Klondyke business it has exhibited the characteristics of the cad.

VICTORIA THE PLACE.

Inquiry as to the Suitability of This City for Fitting Out a Klondyke Expedition.

The following self-explanatory letter was yesterday received and will be answered satisfactorily to-day:

BUFFALO, N.Y., July 28, '97,
S. Jones, Dominion Hotel, Victoria:

DEAR SIR,—As I was a guest in your hotel on two occasions and your courteous treatment is kindly remembered, I wish to ask you to get me particulars of the probable expense of fitting out a party of twenty young men for Klondyke; also what the chances are for getting a schooner cheap, and if Victoria is a good place to start from. We propose leaving here next January, and as Victoria is the fitting out place for sealers bound north, I should think it would be a good place for us to do the same. Any information you can give me will be appreciated.

SUPPOSED WIFE MURDER.

End of Domestic Troubles in a New Jersey Household.

NEW YORK, Aug. 3.—Mrs. Lizzie Schurman was found dead in bed to-day in the cottage where she lived with her husband near Secaucus, N. J., in the Paterson plank road. There was a bullet in her head. The cottage is in a very lonely spot. Frederick Schurman did not notify the police of Hoboken, which are the nearest officials, until noon to-day, of his wife's death. He says he was in another room and heard no shot. Sherman is a florist at Secaucus. About six months ago his wife created a disturbance at a house in Unionhill, N.J., while searching for her husband, whom she accused of infidelity. The coroner is investigating.

What a loud noise a dollar makes these days. Even the humble dime makes itself heard in no uncertain tones. Cash speaks with a tone so eloquent that when it speaks all other orators take a back seat, therefore, we think it best to quote prices. RATES AND TAXES BY-LAW 1897.

THE Municipal Council of the Corporation of the City of Victoria, enacts as follows:—

1. There is hereby settled, imposed and levied, and there shall be raised and collected an equal rate of fifteen mills on the dollar upon all land upon the Assessment Roll for the year 1897 of the Corporation of the City of Victoria, at its assessed value thereon.

2. There is hereby settled, imposed and levied, and there shall be raised and collected an equal rate of fifteen mills on the dollar upon all improvements upon the Assessment Roll for the year 1897 of the Corporation of the City of Victoria, at fifty per cent. of their assessed value thereon.

3. There is hereby settled, imposed and levied, and there shall be raised and collected, a special rate of one mill on the dollar upon all lands and improvements upon the Assessment Roll for the year 1897 of the Corporation of the City of Victoria, as to land at its assessed value thereon, and as to improvements at fifty per cent. of their assessed value thereon, for Board of Health and Hospital purposes additional to the sum mentioned in section 136 of the "Municipal Clauses Act, 1896."

4. There is hereby settled, imposed and levied, and there shall be raised and collected, a special rate of two mills on the dollar upon all lands and improvements upon the Assessment Roll for the year 1897 of the Corporation of the City of Victoria, as to land at its assessed value thereon and as to improvements at fifty per cent. of their assessed value thereon, for school purposes, additional to the sum mentioned in section 137 of the "Municipal Clauses Act, 1896."

5. The aforesaid rates and taxes shall be due and payable to the Collector of the said Corporation, at his office, at the City Hall, Victoria, on the 30th day of August, A.D. 1897, and all persons who pay the aforesaid rates or taxes on or before the 31st day of October, A.D. 1897, shall be entitled to a discount or reduction of one-sixth of the amount thereof.

6. The rates and taxes on land or on improvements which are unpaid on the 31st day of December, 1897, shall bear interest therefrom until paid in full at the rate of six per cent. per annum thereof.

7. The terms "land" and "improvements" as used in this by-law, shall have the meaning set forth in section 2 of the "Municipal Clauses Act, 1896."

8. The rates hereby settled, imposed and levied, shall be raised and collected in addition to any special rate that may be levied by the Municipal Council of the Corporation of the City of Victoria under section 4 of the "Municipal Clauses Act Amendment Act, 1897."

9. Any by-law or by-laws containing any provision or provisions which may be, or which are, inconsistent with or repugnant to the provisions of this by-law, is and are hereby repealed in so far only as the same are so inconsistent or repugnant, but not otherwise, so as that full force and effect shall be given to the provisions of this by-law.

10. This by-law may be cited as the "Tax By-Law, 1897."

Passed the Municipal Council the twelfth day of July, 1897.

Reconsidered, adopted, and finally passed by the Council this nineteenth day of July, 1897.

A By-Law

For Providing a Residence, with Grounds, for the use of the Admiral of Her Majesty's Navy, for the time being, of the North Pacific Station, and for such purpose to make an Appropriation out of the General Revenue of the Municipality and to levy a Special Rate upon the Credit of the Municipality.

WHEREAS by virtue of section 4 of the "Municipal Clauses Act Amendment Act, 1897," the Municipal Council of the Corporation is empowered to make, alter and repeal by-laws for acquiring, by purchase or otherwise, any real property within or without the municipal limits for the purpose of providing a suitable residence, with or without grounds, for the use of the Admiral of Her Majesty's Navy, for the time being, of the North Pacific Station, and with power to convey the same to Her Majesty if it shall be deemed advisable, and for such purpose to make, from time to time, appropriations out of the general revenue of the municipality, or in place of or in addition to any such appropriation to levy a special rate or rates upon the credit of the municipality;

And whereas it is deemed expedient to purchase a suitable residence, with grounds, for the use of the Admiral of Her Majesty's Navy, for the time being, of the North Pacific Station, provided the Admiralty, on behalf of Her Majesty, accept a conveyance

of the same and will agree to maintain and keep the same in repair for the purpose of such residence;

And whereas the estimate cost of such residence and grounds is \$14,000;

And whereas the whole ratable land and improvements or real property of the said Corporation of the City of Victoria, according to the last revised assessment roll for the year 1897, is \$16,804,335;

And whereas for the purpose aforesaid it is intended to levy, in addition to all other rates, a special rate upon the credit of the municipality of one mill in the dollar, and in addition thereto to make an appropriation not exceeding \$3,000, out of the general revenue of the municipality, as shall be sufficient with the said special rate to complete such purchase.

Therefore the Municipal Council of the Corporation of the City of Victoria enacts as follows:—

1. It shall be lawful for the Corporation of the City of Victoria, by resolution, to purchase, at a cost not exceeding \$14,000, any real property within or without the municipal limits that the Council may deem suitable for the residence of the said Admiral, and upon the completion of such purchase to convey such real property to Her Majesty upon trust to maintain and keep the same in repair as a residence for the said Admiral.

2. The agreement for any such purchase by the Corporation shall be in writing and shall contain a proviso that the Corporation shall be at liberty to cancel the said agreement in the event of the Admiralty refusing on behalf of Her Majesty to accept upon the said trust a conveyance of the property agreed to be purchased.

3. For the purpose of making such purchase there is hereby settled, imposed and levied, and there shall be raised and collected, in addition to all other rates, an equal rate of one mill on the dollar upon all land upon the assessment roll for the year 1897, of the Corporation of the City of Victoria, at its assessed value thereon.

4. There is hereby settled, imposed and levied, and there shall be raised and collected, in addition to all other rates, an equal rate of one mill on the dollar upon all improvements upon the assessment roll for the year 1897, of the Corporation of the City of Victoria, at fifty per cent. of their assessed value thereon.

5. The aforesaid rates and taxes shall be due and payable to the Collector of the said Corporation, at his office at the City Hall, Victoria, on the thirtieth day of August, 1897, and all persons who pay the aforesaid rates or taxes on or before the thirty-first day of October, 1897, shall be entitled to a discount or reduction of one-sixth of the amount thereof.

6. The aforesaid rates and taxes which are unpaid on the 31st day of December, 1897, shall bear interest thereon until paid in full, at the rate of six per cent. per annum thereon.

7. It shall be lawful for the Corporation of the City of Victoria to appropriate, by resolution, out of the general revenue of the municipality such a sum of money, not exceeding \$3,000, as will, with the proceeds of the said special rate hereby authorized, be sufficient to complete the said purchase.

8. In the event of the Admiralty electing on behalf of Her Majesty not to accept a conveyance of the said real property that may be proposed to be purchased as aforesaid, and to maintain the same as a residence for the said Admiral, all moneys that may be levied under the said special rate as aforesaid, shall be returned to the persons respectively paying the same, upon application being made by such persons respectively to the said Collector at his said office.

9. The terms "land" and "improvements" as used in this by-law shall have the meaning set forth in section 2 of the "Municipal Clauses Act, 1896."

10. This by-law may be cited as the "Admiral's Residence By-Law, 1897."

Passed the Municipal Council the 12th day of July, A.D. 1897.

Reconsidered, adopted and finally passed by the Council this 19th day of July, 1897.

IN THE INN PARLOR AFTER THE

WEDDING.

The flowery white wedding is over. And over the rush of the train, so turn your sweet eyes to your lover And kiss him again!

There's no one to bore or to bother. There's no one to call and to stay. The lovely pretty woman and each other Are ours from today.

This quaint little parlor—how pleasant its flavor of long ago life! But the crown of its life is the present, My darling, my wife!

The pleasant wood fire's glowing steady. The table is set and for two, The little white table all ready For me and for you.

Do you think that I ever shall bore you? Will you ever be angry with me? Ah, let me sit still and adore you While you pour out the tea!

I'll help you. No boasts will I utter, But you see how domestic I am. I can cut your sweet bread and butter And hand you the jam.

After tea we will stroll down the meadow By moonlight, as true lovers should, And kiss in the corner of shadow You see by the wood.

One kiss! Now my tea-cup is carried To the place that's laid opposite you. My wife pours the tea out! We're married! Oh, can it be true?

STORY OF A KISS.

A quaint little maiden, 10 years old, of the Quaker City, returning from school with book and slate, found her way blocked by a great crowd, and up the street soldiers came marching, accompanied by bands of music. Although it was proscribed by the discipline of her fathers, the child loved music and a brass band above all things.

Pushing her way among the people, she saw banners with foreign names—"Palo Alto," "Monterey," "Buena Vista;" then came others with the legends "Old Rough and Ready," "General Taylor Never Surrenders," etc.

She knew it was in honor of the soldier president, the hero of a successful war. Her father had told her about it, and, although war was also proscribed by the discipline of his peaceful sect, success was not proscribed. Everybody recognizes that, and the little maiden, with round, wondering eyes, clasps her hands and keeps time with the music and is a part of the enthusiastic scene.

Every curve and dimple of her round little body is a protest against discipline and straight propriety. Every refractory, worldly minded curl, in spite of discipline and bear's oil, has a way of escaping from the demure little hood and dangling about the child's eyes.

Now she hurries home to talk with father about the parade. They were great cronies. He had told her what history they had been making down in Mexico. She knew that the Democrats had wanted Lewis Cass for president, and the Free Soilers, who were opposed to the extension of slavery, wanted Martin Van Buren, but General Taylor, after his brilliant victories, was the people's choice.

Now, our little Quakeress was a hero worshiper, and this soldier president being the first historic character to come in touch with her life, she proceeded, after the manner of woman-kind, to set him up in a high white niche in her worshipful heart.

Her father, being overkind and distrustful, had met with many business losses. Although the child knew nothing of the mysteries of commerce, she understood that he was in trouble, and, young as she was, tried many little plans to help him.

Tonight in her dreams there were the gay parade, the music and banners, the president and her father.

Waking, she found the room very dark. Suddenly a streak of light came in an eastern window. "Oh, it is day," she cried, "and that was the dark hour which comes before it!"

Out of bed bounded the little white robed figure, and, knocking at the door of mother's room, called, "Father, is thee awake?"

"What does thee want, my child?"

"I have seen the day come out of the sky. Tell me, father, is it always the darkest hour just before day?"

"I hope so, my daughter."

"I am so glad," she said.

"The child has had an omen. The light may be breaking for us, wife," said he.

"Thee is getting superstitious, Horatio."

"It may be. I have often noticed when a man is down he grasps the little things that a successful person laughs at."

Our little maiden pattered back to bed, where she evolved a very ambitious scheme, which she divulged at the breakfast table.

"Father, will thee let me go to see the president of the United States?"

She was a dainty little maid, but she drew herself up with all her childhood's dignity. "I want to see him on business."

In answer to her father's surprised look she continued: "To ask him to let thee work for him. Thee knows how to add up sums and write letters and books, or thee could mind the postoffice for him and send the letters off to the people. I am sure he would like thee to do it. May I go and ask him, father?"

"I believe I will let thee go," said the father quietly, as if she had asked permission to go and visit a neighbor.

THE UMATILLA'S DELAY.

Heavy Freights Detained the Ship on the Sound—Other Marine Paragraphs.

Capt. Bennett, superintendent of the Broadway dock, San Francisco, was in charge of the steamship Umatilla when she arrived here from Puget Sound ports en route to California yesterday morning. Capt. Hunter, who has for years been in charge, stayed over on the Sound and will go as pilot on the Queen on her next trip to Alaska. There being so many of their fleet now in the Northern business, the Pacific Coast Steamship Co. are finding difficulty in getting pilots for all, and the temporary change on the Umatilla is made for this reason. The Umatilla did not reach port until 2:30 o'clock, and it was two hours later before she sailed. Her unusual delay was due to the handling of specially heavy freight and to an extra long stoppage at Vancouver before going down Sound.

MURDER ON THE "ENSENADA."
A dispatch from Port Gamble, Wash., says that A. Johnson, carpenter of the British bark Ensenada, has been murdered by I. Tonnes, the cook. The instrument used was a large butcher knife, which, it is supposed, struck the heart. It is reported that one of the officers saw Johnson standing just in front of the galley door with his hand over his heart, and heard him say, "See, you have cut me." Immediately after saying this he fell to the deck. Both men had been up all night drinking, and had evidently just gone aboard the vessel. Johnson was married and leaves a family in Norway. Tonnes is German and also a married man.

THE "CITY OF SEATTLE."
It was semi-officially announced in Tacoma yesterday that the City of Seattle is to go to Alaska, as the gossip had long ago stated. The vessel lies at Ocean dock, and carpenters and engineers are busy putting in bunks on the freight deck and repairing her engines.

MARINE NOTES.
Ship Louisiana has been chartered to load at Chemainus, but her destination has not yet been settled on. The ship is on the Sound.

The steamer Willapa has been surveyed by the Vancouver representative of the Bureau Veritas, in which it is expected she will be insured.

Report comes from the Sound that the old steamer North Pacific has been sold to Portland merchants, presumably to run to Dyea from the Columbia river. The Empress of China arrived at Hongkong at noon yesterday.

MINERS ARE MISLED.

Prospectors Bound for the Klondyke Not Fairly Treated by Steamship Companies.

The Bristol Being Well Fitted—Letters of Interest Concerning Northern Travel.

F. C. Davidge & Co., who will give the steamship Bristol despatch for the far North next week, have been informed through their Seattle and Tacoma agencies that much harm is being done by the Klondyke business through the persistent attempts by transportation companies in those cities to make the American travelling public believe they will not be compelled to pay duty on their goods entering Canadian territory. These companies are pressing all kinds of craft into the Northern trade and for every one there appears to be a load waiting, the impression on the Sound being quite general that no difficulty will be encountered in avoiding the Canadian customs. The careless travellers seem to give scarce a thought to the mounted police, armed with more than customary power in view of their comparative isolation—vigilant and trustworthy.

"I do not think for a moment," said Mr. Davidge yesterday, "but what Canadian law will be strictly enforced and that the miners who attempt to escape it will be fooled. Meanwhile, our business is suffering from misrepresentation. Next week, I hear, two scows loaded with gold seekers and their effects are to be sent North in the 'Bristol.' The tug has not yet been engaged, but some of the local steamboat men are bidding on the contract. The Bristol is still in Esquimalt and will not commence to load for a few days yet. Gravel freight is accumulating for the vessel, and passenger inquiries are daily being received, but the amount of one or two of the other the agents are not at present in a position to state.

ANOTHER GOOD SHIP.

The Steamship "Bristol" Being Hurriedly Put in Readiness for Her Northern Trip.

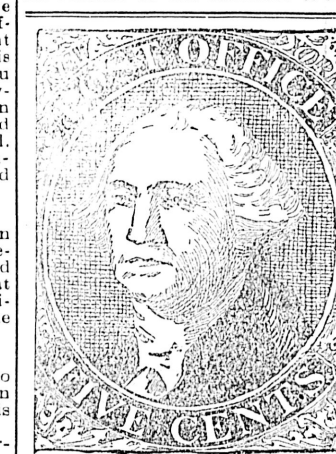

The fine steel steamship Bristol, chartered by F. C. Davidge & Co. to ply between Victoria and Alaskan ports, will make her first trip next week. She leaves on Tuesday, August 10, for Dyea. The Bristol is a mammoth ocean liner, one of the largest and most spacious ships on the Pacific Coast. Messrs. Davidge & Co. have gone to great expense to fit her for this service. She has a capacity for 1,500 tons of freight, 600 horses and 1,000 first-class passengers. In addition to the elegant saloon there are being fitted up 720 comfortable cabin berths, everything possible being done to promote the comfort of passengers. There will be ample room and first class accommodations for man and beast. Davidge & Co. expect to reap substantial reward for their enterprise in fitting out this fine vessel. The fares and rates have been placed at reasonable figures. The first class fare, including meals and everything, is \$30 to Dyea, 250 pounds extra baggage free. Freight per ton, \$10; horses or cattle per head, \$20. The space is being rapidly taken, and no doubt the Bristol will carry a great crowd of gold seekers.

THEIR FIRST LETTER HOME.

Victorians Who Are Taking Live Stock Into the Klondyke Report at Juneau.

A letter which Mr. Joseph Heaney has just received from John Frank, one of a party of Victorians who left here a few weeks ago with a number of cattle and horses for the Klondyke will be of interest to those on the same journey. It is dated Juneau, July 23, and reads as follows:

"We arrived at this place safely, all the cattle being in good order. The collector of customs at first threatened to send his inspector with us to the boundary line. We would have had to pay his fare back and forward from Juneau, feed him and pay him \$3 per day, but the collector at last concluded to dis-

pense with the inspector and let the customs officer that accompanies the ship see us to Chitlat and then let us go. All was arranged nicely, and in this way we were saved expense of at least \$75 to \$100. The collector wants duplicate invoices of our outfit, as the law requires them. We hear we will have to pay for a scow to land the cattle at Chitlat. I think that is not a fair deal, but we will have to do the best we can. The boys are all in good health, although the fare in the steerage was rather tough. Before reaching Queen Charlotte Sound I was afraid for the cattle for awhile, as they could not keep their feet and threatened to burst the pens by their great weight. All the rest of the journey was quite smooth. It has rained for two days, and we expect rainy weather until we get over the divide."

THE UNITED STATES PLAN

Fish From the Great Lakes Must Pay Duty if Caught by Canadians.

BUFFALO, N. Y., Aug. 3.—A special ruling of the assistant secretary of the treasury upon the questions submitted re the Sandusky fishery, Erie, as to what port to the point at this Under the benefit of local fishermen. Dealers were enabled to fish in Canadian waters by the McKinley tariff bill large get the fishing twine to Canadians to outpr catch into American ports with free duty. Under the Wilson bill the fish was free of duty. The Dingley act states that none but fish caught in the Great Lakes by American citizens can be admitted free of duty. The laws of the Dominion provide that none but citizens of the Dominion may fish in Canadian waters. If the dealers on this side bring in fresh fish from Canada now they must pay the duty of one-fourth of a cent a pound.

Another Row On.

CONSTANTINOPLE, Aug. 1.—Incursions of Albanians who recently attacked almost simultaneously seven Serbian block-houses along the stretch of frontier between Madliza and Rashka, have led the Serbian government to make a formal protest to the powers, and it is believed that this is part of an organized plan to provoke Serbia. The matter is being discussed by the ambassadors in conference, with a view of getting an explanation with Tewfik Pasha, the Turkish minister of foreign affairs.

The Rebels Done Up.

CAPETOWN, Aug. 1.—The government troops have captured all of the enemy's positions north of Twaiskloff. Among the British losses are Sergeants Fall and Mercer, who were killed. Chief Lukajanjites, who led the rebels, was killed with many of his followers. A general surrender of the rebels is expected.

More Cubans Killed.

HAVANA, Aug. 3.—A dispatch from Sancti Spiritus reports three engagements in successive days at Cuevas, Cabaxas and El Laurel, between Maximo Gomez and the Spanish brigadier, Calixto. Ruiz says the insurgents were defeated and dispersed with heavy loss, while his own loss was insignificant.

Portuguese in Gazaland.

LISBON, Aug. 1.—Official dispatches from Lorenzo Marques, South Africa, confirm the reports of recent fighting between the government troops and rebellious natives of Gazaland. The battle took place on the 21st of July near Chimbutu, the capital of Gazaland. The Governor of Portuguese East Africa, Col. Albuquerque, with a small Portuguese force routed 7,000 rebels. The Portuguese loss was two killed and ten wounded. The natives lost 300.

TRENTON, N.J., Aug. 3.—The Glucose Sugar Refining Co., with an authorized capital stock of \$40,000,000, was incorporated this afternoon. The company is empowered to make sugar from corn and also to manufacture all the products and bi-products of corn. Among the incorporators is F. O. Matthiessen, New York, the big sugar refiner, with extensive refineries in Jersey City.

Drouth in Missouri.

ST. JOSEPH, Mo., Aug. 3.—With the thermometer 99 in the shade again to-day and no sign of rain, farmers are becoming more discouraged. Reports received at the railway offices to-day are more disheartening than those of yesterday.

Visited His Old Haunts.

KINGSTON, Aug. 3.—An ex-convict named McGarvey was captured in the residence of J. H. Metcalfe, warden of the penitentiary, last night. His ramblings aroused Mrs. Metcalfe, who gave the alarm, and the male occupants with revolvers drawn ran the man down and captured him.

JACK GREEN—the "Professor Jack," to whose energy and ability in the difficult role of instructor the Seattle Athletic Club owes much of its prominence in the sporting world—is paying Victoria a brief visit, which may possibly result in an exhibition being arranged. For Green besides being an admirable teacher of the science of self defence is also a strong and clever exponent of scientific sparring. He is accompanied by Billy Baxter, welter weight champion of the coast, and a brother of Portus Baxter of the Post-Intelligencer, and W. Daley, another press writer on sporting themes and manager of numerous fistic stars. The party are enjoying themselves thoroughly but very quietly in Victoria, and are making friends among all who meet them.

If you once try Carter's Little Liver Pills or sick headache, biliousness or constipation, you will never be without them. They are purely vegetable, small and easy to take. Don't forget this.

WON IN STRAIGHT SETS

Tuesday's Events in the Tennis Tournay Remarkable for Some-what One-Sided Play.

Combe Defeated Manitoba's Ex-Champion—Interesting Fixtures for To-Day.

Yesterday's matches in the tennis tourney were remarkable for one-sidedness to a considerable degree, almost all being won in straight sets. The play was nevertheless of a fine quality, the courts playing well and the interest of the large concourse of spectators, quite filling the spacious grandstand and grounds, being preserved until the decision of the very last fixture on the afternoon's card.

The notable matches of the day were those in which Messrs. Tritton and Kirk defeated Messrs. Waterman and Waterman, and that of Mr. Harvey Combe vs. Mr. G. Girdlestone, late champion of Manitoba, but who met defeat at the hands of the Victorian, 6-2, 6-2. In the former of these two events, after two hard fought sets were disposed of, Tritton and Kirk by splendid play succeeded in defeating the Waterman brothers six games to one. Mr. Tritton's half volleying was a special feature of the game, and exciting many expressions of admiration and commendation from the onlookers.

In the match between Mr. Combe and Mr. Girdlestone, the former's deadly cross-court stroke rendered him splendid service completely outwitting his nimble antagonist.

Among the special matches for to-day that of Miss Musgrave vs. Miss Goward, the present champion, and that between Mr. G. V. Cuppage and Mr. C. Parsons and Messrs. F. S. Card and W. Speke, the crack players from the flagship, promise to be of exceptional interest.

The members of the home club were delighted yesterday to welcome Messrs. Hurd and Wright from Seattle, and Mr. Benham of Tacoma; these players being among the most capable and popular representatives of tennis on Puget Sound. With them the visiting contingent is quite able to give an excellent account of itself.

ABANDONED AT SEA.

Fate of a British Tramp Steamer Lumber Laden for Wales.

BOSTON, Aug. 3.—The British steamer Sagamore arrived in port this afternoon from Liverpool, having on board the entire crew of 21 men of the British tramp steamer Furtor, which was abandoned on July 27 in a sinking condition, in latitude 50. 50 north and longitude 25 degrees west. The Furtor was in command of Capt. J. D. Jenkins and sailed from West Bay June 23 with a cargo of deals for Barry, Wales. On June 27 she ran into an iceberg and was forced to put into St. John's, Nfld., for repairs, putting to sea again on July 22. On July 25 a strong southerly gale sprang up and it was not many hours before the ship sprang a leak. The water gained gradually and the crew remained on board until 2:30 o'clock in the morning. On July 27, fearing that she would founder at any minute, four boats were lowered. A fire was started on the deck of the steamer to attract the attention of any passing vessel, and soon the Furtor was in flames. The crew then put off in the boats, which were kept nearly together for forty-eight hours, when the Sagamore sighted them. The Furtor was a steel steamer built at Stockholm in 1889, and was owned by J. Holman & Sons, of London. She was formerly named the Tydetale. Her registered tonnage was 1,400 net.
